

OSG-Automotive

Tractors and Constructions Glazing

Promoting Innovativeness Encouraging Excellence

OSG is the major glass processing company in Israel for flat and curved glass. We create a vast range of professional glass products for various sectors, using some of the most advanced technologies available today. Everything we do is transparent. Our products are used daily in extreme conditions, providing safety and security. That is why we strive to make each one the finest in its range - the most resistant, crystal clear and unblemished. When your products are scrutinized so closely, nothing but the best counts.

Company Profile

OSG, founded in 1979, is the leading Israeli manufacturer of flat and curved glass for 3 major markets: Armored, Automotive and Architecture. Each division caters to its clients' unique needs, while maintaining compliance with today's most stringent requirements. In our Automotive Division we develop and produce a comprehensive range of specifically tailored glass windshields and windows for cars, buses, trucks, tractors and train carriages. Our range includes laminated, tempered, insulated glass units and heated glass. Each production line operates state-of-the-art equipment, providing both short and long series at competitive prices and quick turnaround time.

OSG's expert engineering team defines and develops products to meet changing market requirements, coordinating the efforts of technical and ballistic laboratories, graphics department, metal and carpentry workshop and a specialized molding department.

Our "zero-defects" policy and total quality control, combined with flexible production lines and swift TTM, position us as one of the leading names in the industry. The plant operates according to the ISO 9000-2000 and ISO 14000 standards.

Future Vision

OSG plans to focus on 2 main divisions – armored and automotive, where our expertise and R&D are utilized to maximum extent. The ever-growing challenges in these two diverse markets, encourage us to continue to do what we do best. We will continue to make every effort to maintain our strong and established position as a leading glass processing company, serving the local and international market. We take pride in our work and our achievements, and look forward to the challenges ahead.
