Bus and coach windscreens

Keeping a clear view of the road ahead Safety laminated bus and coach windscreens

OSG has been producing windscreens for buses and coaches since 1985. Utilizing the latest technology and implementing a production process of excellence, the company has grown to become one of the leading manufacturers of laminated full front coach and bus screens. OSG's bending mold department puts into practice some of the world's most sophisticated techniques, creating tailored products to perfectly accommodate our client's needs. No screen is beyond OSG's capabilities.

The world at our doorstep: Global Reach

OSG is a global OEM and after market supplier, gaining worldwide recognition for its outstanding bus windscreens. Our experienced export department is always accessible, and our wide communication base enables us to maintain an ongoing connection with both our product supply and international clients.

At the head of our game: Research and Development

OSG's highly skilled team of engineers is committed to maintaining and implementing the most advanced technology available today, continually striving to improve and enhance their technological capabilities. Integrating innovations into the work process, along with the acquiring of the most advanced equipment, enables our team to develop and produce the highest quality of products available today.

Up to standard: Quality Assurance

OSG maintains elaborate laboratory testing facilities, accommodating the in-house testing of screens by various institutions. All OSG bus and coach screens are approved by BSI, E-11 and the American Dot. All production line stations and products are ISO 9000-2000 and ISO 14000 approved.
