

Company Profile

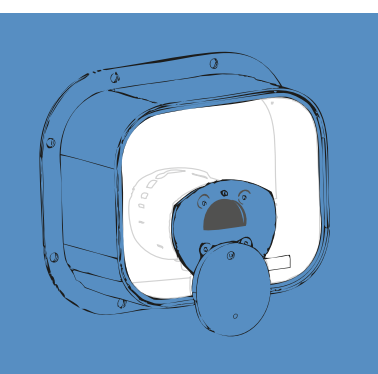

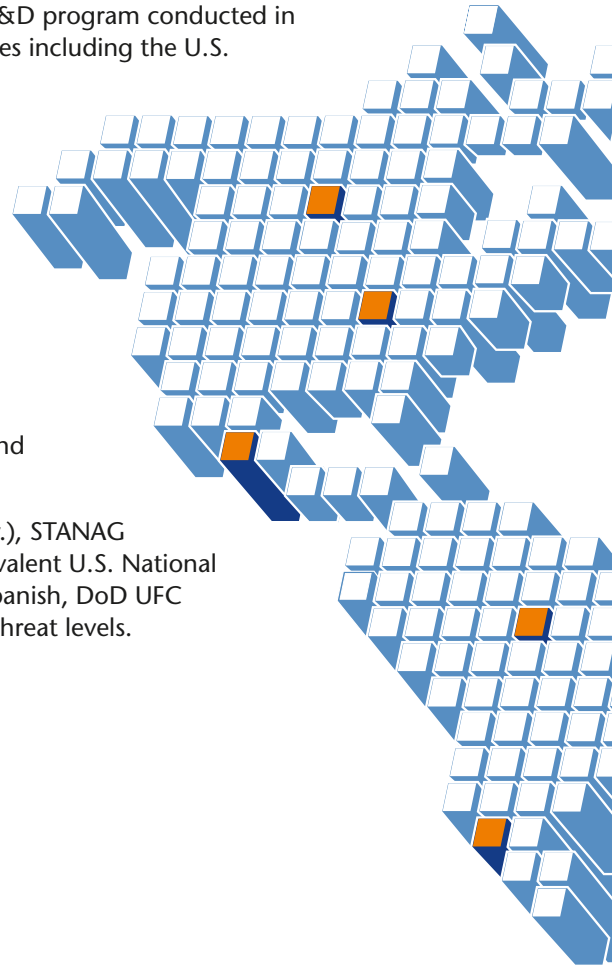

Innovating around the World

OSG (Oran Safety Glass) is a leading supplier of transparent armor to military forces worldwide. Building on more than 30 years of proven field experience, OSG's products are the result of an intensive R&D program conducted in coordination with the world's foremost militaries including the U.S. Military and the IDF (Israel Defense Forces).

Real-time battlefield feedback is processed by the R&D Team at OSG, increased threats are identified and solutions developed to meet the needs of the combatant.

OSG's transparent armor products offer protection of the highest standards in no-spall or low-spall configurations, assuring total security. OSG Technologies combine extensive experience and continuous development and incorporate the most sophisticated materials and advanced designs.

OSG's products meet, ATPD-2352 (current Rev.), STANAG 4569 Standards (Levels 1 to 4), as well as equivalent U.S. National Institute of Justice (NIJ), European, German, Spanish, DoD UFC performance criteria and IDF standards for all threat levels.

OSG - the Edge

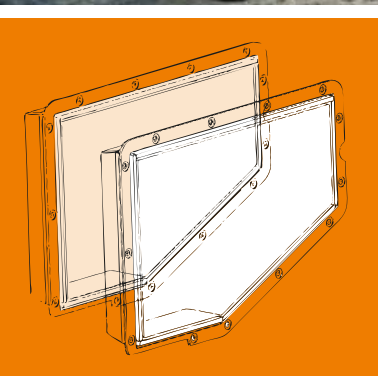

OSG offers comprehensive armor solutions from concept to delivery, including protection against kinetic threats (KE), Projectiles (BR), blast and fragments (FSP) and forced entry (FE).

Our proprietary compositions assure the highest protection, even against multiple strikes at close range.

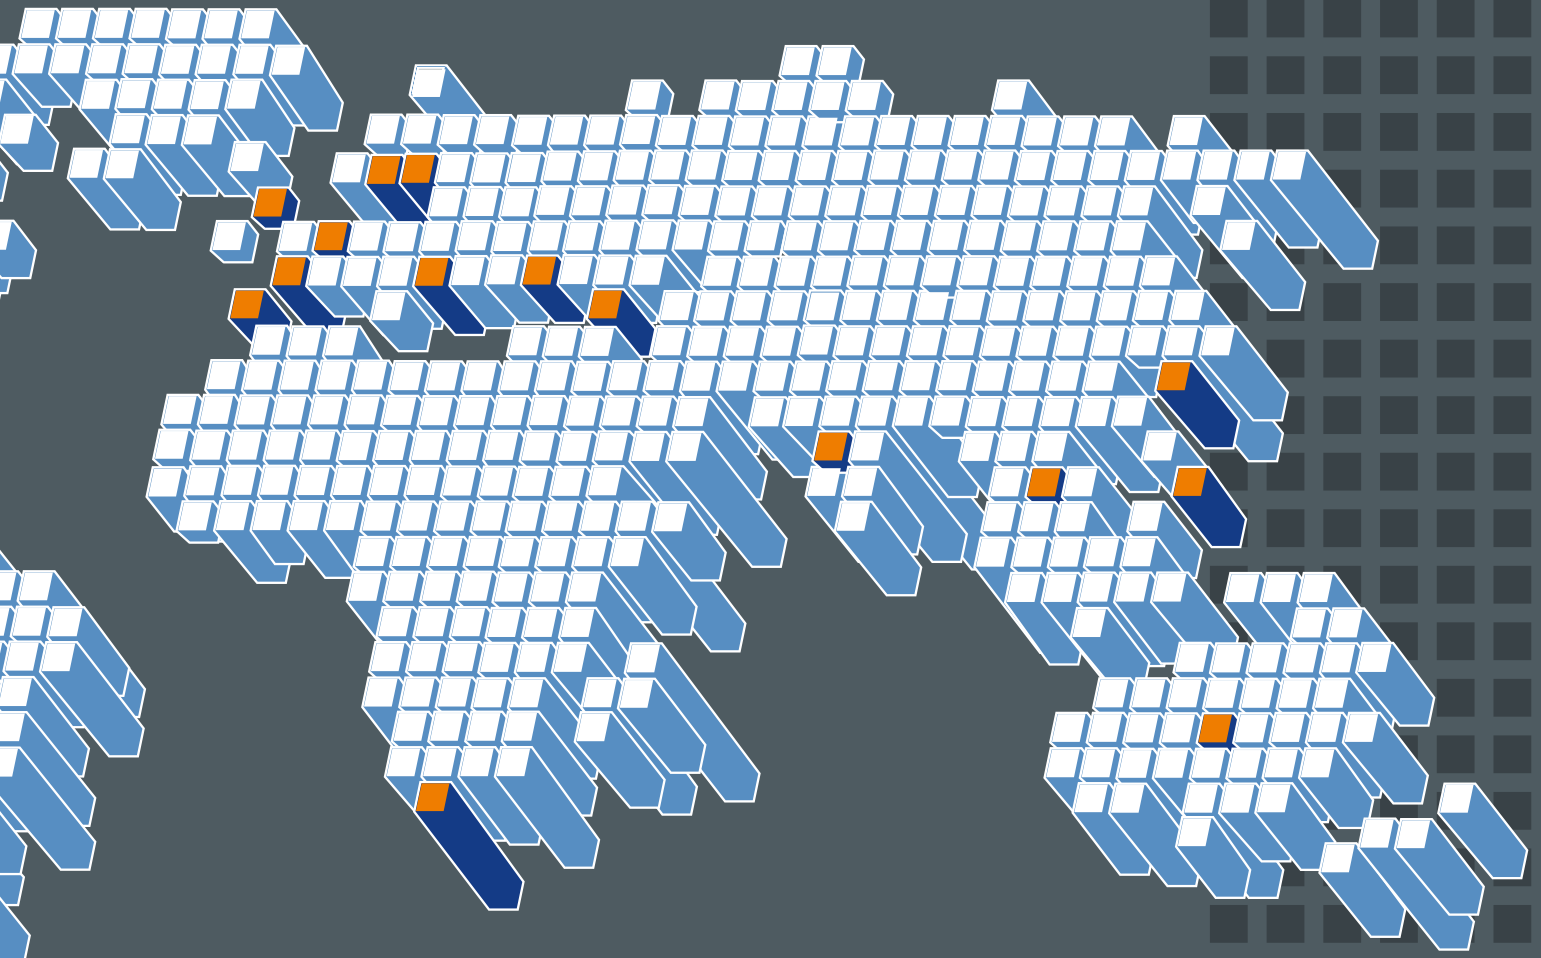

Clients benefit from our extensive expertise in the design and construction of complete transparent armor, including frames (steel, aluminum or composite), gaskets, rapid heating/defrosting, Blast Plus, Kit A+B concept, Emergency Vehicle Escape Systems, Rock Strike, diminution of 'spider cracks', Peel ply, attenuation of RFI and EMI, concealed antennas, abrasion resistance, and more.

In addition to producing high-quality transparent armor, OSG operates state-of-the-art Research & Development facilities. In-house laboratories include ballistic laboratories for the full range of small arms kinetic and FSP fire testing. Additionally, blast, fragmentation, RPG, EFP and similar higher-threat tests are conducted.

In-house laboratories also include environmental laboratories where a full range of environmental tests (pursuant to STANAG and US Army and USMC Specification for transparent armor - ATPD-2352 current revision) are conducted.

Your safety means the world to us

Working in more than 35 countries, OSG reference includes the US Army, US Marine Corps, NATO Forces, German, French, UK, Canadian, Indian, Sweden, Thai, Turkish and many more Armies and Police forces.

OSG is virtually sole supplier of T.A. to the IDF.

OSG US is the largest manufacturer of Transparent Armor systems to the US MRAP Program having worked closely with Navistar to design and integrate all MaxxPro and Dash transparent armor assemblies. OSG is DoD and DoS validated to provide Transparent Armor for security vehicle programs.

OSG is the OEM and replacement-glass supplier to several automotive, bus & train manufacturers.

OSG brings you:

- R&D driven solutions based on **vast experience**. Saving lives for more than 30 years.
- **Quality at its peak**. Mature TRL products go into service with the highest protection levels, under strict quality control procedures.
- **Comprehensive & flexible in-house services** (R&D-production-assembly), giving the customer the best **over-all solution**.
- **Vast capacity**.
- **Competitive price**.

Offering You the Strength of a Global Partner

As a leading worldwide manufacturer of flat and curved, laminated, tempered and armored glass, OSG supports three major markets: armored, automotive and architecture for both military and civilian applications.

OSG operates three cutting-edge manufacturing facilities:

- 2 Israeli facilities located in Tzuba and a US-based manufacturing facility located in Virginia.
- 400,000 square feet total and over 350 employees.
- All facilities are ISO 9001-2008 & 14001:2004 certified.

We are here for you, from R&D and engineering to full scale production of glass, frames, assemblies and more. OSG is a one-stop, in-house solution for all of your transparent armor needs.

OSG's engineering staff is fully qualified and eager to collaborate with you in order to provide assistance with engineering, producing, installing and integrating armored glass (into all aspects of your project).
