

OSG - Israel's Leading Glass Producer

Company Profile

OSG is Israel's leading glass producer, manufacturing in four main areas:

- Laminated windscreens for coaches, buses and agricultural vehicles
- Flat and curved tempered glass, including a full range of bus and passenger car sidelites.
- Bulletproof and armored glass for both civilian and military markets
- Architectural glass and interior design

More than 50% of OSG'S automotive glass is exported to leading ARG suppliers in Europe as well as OEM. Established more than 25 years ago, OSG offers clients the production flexibility of both short and large series at competitive prices and quick turnaround time. The company's bulletproof glass is widely used by the Israel Defense Forces and exported to security forces abroad as well as leading armoring contractors.

From mold design to screen printing to encapsulation, OSG rapidly and precisely fabricates virtually the whole range of glass windshield and sidelites that European and Israeli bus, truck, car and tractor fleets require. At its 14,000 sqm fabrication plant, state-of-the-art equipment includes: a Grenzebach automatic pre-processing line, a Bavelloni CNC edging machine, a Tamglass Screen-Max serial furnace for bus windscreens and Tamglass HTBS Pro E bending and tempering oven.

The plant operates according to ISO 9000-2000 and ISO 14,000.

OSG implements a zero defects policy and maintains a full range of laboratory testing facilities to ensure total quality control. All its products comply with international standards and the company is audited on a regular basis by British Standards Institute SA and Israeli Standards Institute (SII).

The company is located approximately 10 km west of Jerusalem and employs more than 200 people. The company is owned and operated by Kibbutz Palmach Zova.
